

Corona virus: practical advice for the public

Always wash your hands with warm water and soap before eating and after contact with surfaces (such as door handles, etc.) or use disinfectant.

Cough or sneeze into a paper tissue, or into the inside of the elbow.

Avoid shaking hands and kissing as a welcome.

In case of coughing, respiratory problems or high temperature: call 1450 or your GP.

1450 Health advice and 0800 555 621 AGES hotline (Agency for Health and Nutrition Safety) 24/7

Thorough hand hygiene in case of contact with risk groups such as older persons or patients who are chronically ill or who have a weak immune system.

Avoid large crowds of people.

Do not travel to affected regions.

In case of illness stay at home.
